Conclusion

The project **"To Supply Leftover Food to Poor"** demonstrates how Salesforce can effectively tackle the social challenges of food wastage and hunger. By creating a **centralized, automated system**, it connects donors, volunteers, and NGOs, ensuring surplus food reaches those in need efficiently.

Key features—**custom objects, flows, triggers, reports, and dashboards**—make the donation and distribution process transparent and easy to manage. Automation minimizes manual effort, while dashboards provide real-time insights into activities and impact.

This initiative not only improves operational efficiency but also encourages **social responsibility**, showing how modern CRM tools can serve humanitarian purposes. Overall, the project highlights how **technology can be leveraged for meaningful social impact**.
